**Note:** The table above contains placeholders for research findings on anti-Muslim hatred. For a comprehensive database, detailed information on each study would be included, such as methodologies, sample sizes, and key findings. The actual data would fill these placeholders.
Hate speech, Racism & xenophobia

12. The Committee is concerned that, despite the State party's efforts to combat extremism, the phenomena of hate crime and hate speech in political discourse, in the media and on the Internet against ethnic minorities, notably Roma, Muslims and non-citizens, remain prevalent in the State party (arts. 2, 20 and 27).

13. The State party should:
(a) take measures to promote tolerance and an environment inclusive of persons belonging to ethnic, national, racial, religious and other minorities; (b) use legislative, policy and educational measures, including sensitization and awareness-raising, to counter stigmatization of Roma, Muslim and other minorities; (c) take measures to prevent racist attacks and to ensure that the alleged perpetrators are thoroughly investigated and prosecuted and, if convicted, punished with appropriate sanctions, and that the victims have access to adequate compensation; and (d) prohibit any advocacy of national, racial or religious hatred that constitutes incitement to discrimination, hostility or violence.
