France	2015	CNCDH, Report 2014 on the fight against racism, antisemitism and xenophobia (Rapport 2014 sur la lutte contre le racisme, l'antisémitisme et la xénopobie), 21 March 2015	https://www.cncdh.fr/publications/rapport-2014-sur-la-lutte-contre-le-racisme-l...	Public perceptions and attitudes	CNCDH | Commission Nationale Consultative des Droits de l'Homme	The year 2014 was marked by tragic events. Some of them unfortunately served as an instrument to set citizens against others, to oppose groups against each other. The editorial successes of certain works which spread the conflation and raise fears, the stance of the parties of the extreme right in Europe on social tourism, the absence of positive counter-arguments either from politicians or the media or even immigration perceived as a plague by obscuring its benefits, which have been clearly established even if only from a social and financial point of view, have contributed to shaking up principles as cardinal as that of freedom of movement of European citizens.	Quantitative: A face-to-face survey carried out from 3 to 17 November 2014. The questionnaire was designed by the members of the CNCDH with the survey organisation.	Public survey - 1020 adult respondents living in metropolitan France	Not applicable - national level
