DATABASE 2012-2024 ON ANTI-MUSLIM HATRED

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Denmark	2017	ECRI Report, (fifth monitoring cycle). Published on 16 May 2017	https://www.coe.int/web/european-commission-against-racism-and-intolerance/denm...	Racism & xenophobia, Discrimination, Ethnic profiling	ECRI | European Commission against Racism and Intolerance | Council of Europe	ECRI recommends that the Danish authorities set up a comprehensive data collection system for racist and homo-/transphobic hate speech incidents, with fully disaggregated data by category of offence, type of hate motivation, target group, as well as judicial follow-up and outcome. Furthermore, the authorities should take active measures to tackle under-reporting of hate speech. ECRI recommends that the authorities provide training on how to handle hate crime cases to police and prosecutorial staff on an ongoing basis across the country. Cooperating partners in this training should also include the DIHR, the Jewish, Muslim and Black communities, ethnic minority associations, refugee support groups and the LGBT community. ECRI recommends that the authorities facilitate closer cooperation between Muslim communities and the police to prevent and combat islamophobic violence.	The working methods for the preparation of the reports involve documentary analyses, a visit to the country concerned, and then a confidential dialogue with the national authorities.	ECRI's reports are analyses based on a great deal of information gathered from a wide variety of sources.	Not applicable - national level
