DATABASE 2012-2024 ON ANTI-MUSLIM HATRED

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
United Kingdom	2018	Equality and Human Rights Commission (2018). Developing a national barometer of prejudice and discrimination in Britain.	http://www.equalityhumanrights.com/sites/default/files/national-barometer-of-pr...	Discrimination	UK, Equality and Human Rights Commission	The report measures prejudice and discrimination faced by groups with protected characteristics (age, disability, race, sex, religion or belief, sexual orientation, pregnancy and maternity, and gender reassignment). The report findings show, inter alia: • 42% of people in Britain had experienced some form in prejudice in the last year; • Experience of prejudice was higher in minority groups, for example 70% of Muslims surveyed had experienced religion-based prejudice; • Around a third of British adults surveyed felt that efforts to provide equal opportunities to immigrants (37%) and Muslims (33%) had gone “too far”.	Quantitative Survey	2,853 adults surveyed.	Not applicable - national level
