DATABASE 2012-2024 ON ANTI-MUSLIM HATRED

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Finland	2019	ECRI Report on Finland (fifth monitoring cycle). Adopted 18 June 2019, published 10 September 2019.	https://www.coe.int/en/web/european-commission-against-racism-and-intolerance/f...	Racism & xenophobia, Discrimination	ECRI | European Commission against Racism and Intolerance | Council of Europe	ECRI expresses concern regarding the escalation of racist and intolerant hate speech in public discourse, the main targts of which are asylum-seekers and Muslims. Further ECRI holds that the Finnish response is not fully adequate. This is reflected in the lack of comprehensive and systematic data collection on hate speech and hate-motivated violence, the level of underreporting, especially among vulnerable groups, and the relatively small number of prosecutions. With reference to its General Policy Recommendation No. 7, ECRI recommends that Finland criminalises the creation or the leadership of a group which promotes racism, support for such a group, and participation in its activities.	The working methods for the preparation of the reports involve documentary analyses, a visit to the country concerned, and then a confidential dialogue with the national authorities.	ECRI's reports are analyses based on a large amount of information gathered from a wide variety of sources.	Not applicable - national level
