

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
France	2022	ECRI REPORT ON FRANCE (sixth monitoring cycle) Adopted on 28 June 2022	https://www.coe.int/fr/web/european-commission-against-racism-and-intolerance/E...	Discrimination	ECRI European Commission against Racism and Intolerance Council of Europe	The Committee noted that there is a high level intolerance towards Muslims in France. It is amplified by political speeches equating Islam with terrorism and statements implying that Muslims do not integrate into French society, in particular speeches that stigmatize the wearing of the veil. Spikes in hate speech have occurred around events that have revealed the connection between online and offline hate, such as the messages that led to the murder of teacher Samuel Paty in October 2020 and the subsequent reactions that resulted in attacks or vandalism against Muslims.	The working methods for the preparation of the reports involve documentary analyses, a visit to the country concerned, and then a confidential dialogue with the national authorities.	ECRI's reports are analyses based on a great deal of information gathered from a wide variety of sources.	Not applicable - national level
