

## Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Portugal	2022	<a href="#">Observatório de Cibersegurança (Observatory of Cybersecurity) (2022), Relatório Cibersegurança em Portugal - Riscos e conflitos (Cybersecurity Report in Portugal - Cybersecurity in Portugal - Risks and Conflicts), Lisbon, National Cyber Security Centre</a>	<a href="https://www.cncc.gov.pt/docs/relatorio-riscosconflitos2022-obciber-cncc.pdf">https://www.cncc.gov.pt/docs/relatorio-riscosconflitos2022-obciber-cncc.pdf</a>	Public perceptions and attitudes	Portugal, Observatório de Cibersegurança (Observatory of Cybersecurity).	The 2022 edition of the Cybersecurity in Portugal - Risks and Conflicts Report analyses the main cybersecurity incidents and cybercrime indicators, as well as the threat actors, in cyberspace of national interest and the major national and international trends. Regarding the most frequent criminality based on the registry of denunciations to the Cybercrime Office, of the General Prosecutor of the Republic, in 2020 and 2021, hate crimes occupied respectively the 10th and 11th position. The Report also informs that, in the Platform for Reporting Illegal Content of the Portuguese Association for Victim Support, in the years 2020 and 2021, the reported hate speech were respectively 216 and 380, corresponding to 28% and 33% of the total records.	The report is divided into two main chapters: the first presents data on cybersecurity incidents and cybercrime indicators occurring in 2021 in cyberspace of national interest; and the second conjectures on the main threat actors and trends that stand out from the data presented and the contributions of the various partners. The aim is to build an integrated vision that characterises, as accurately as possible, the main threats to cyberspace of national interest.	Not applicable	Not applicable - national level
