DATABASE 2012-2024 ON ANTI-MUSLIM HATRED

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Germany	2024	Germany, CLAIM and ZEOK e.V. (2024). Report on anti-Muslim Racism. Short Summary. Berlin, July 2024.	https://kompetenznetzwerk-imf.de/ressourcen/	Racism & xenophobia	Germany, CLAIM in cooperation with ZEOK e.V. as part of the Competence Network on Islamophobia and Anti-Muslim Racism	In 2023, 1,926 documented cases of anti-Muslim incidents were reported. Incidents include discrimination, verbal and physical attacks and damage to property; hate speech online and flyers/posters with racist content are not recorded. This is an increase of 114% compared to 2022 (n = 898 cases). A large proportion of the documented incidents mainly affect Muslim women and take place in the education sector (21.1%) and in public spaces (18.9%). Children are also verbally and physically attacked. Verbal assaults make up the largest proportion (1,277 cases), followed by discrimination (363 cases) and harmful behaviour (286 cases).	Quantitative (incidents reports)	Statistics include case numbers from regional reporting and advice centres, nationwide reports via the "I Report" reporting portal, nationwide case numbers from the 2023 statistics on politically motivated crimes, and from police press releases and media incidents reports for 2023)	Not applicable - national level
