DATABASE 2012-2024 ON ANTI-MUSLIM HATRED

Research findings

Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Germany	2024	Germany. El-Menouar, Y. (Bertelsmann Stiftung) (2024). 'Muslimfeindlichkeit in Deutschland. Ein gesellschaftliches Lagebild' (Anti-Muslim Hostility in Germany. A social situation report). Ligante - Fachdebatten aus der Präventionsarbeit, Vol. 7, pp. 16-2	https://www.bag-relex.de/ligante7/	Racism & xenophobia	Germany, Bundesarbeitsgemeinschaft religiös begründeter Extremismus e.V., Bertelsmann Stiftung	The report gives an overview of the current state of anti-Muslim hatred and racism and highlights developments in Germany after the 07 October 2023 Hamas attacks against Israel and the war that ensued in Gaza. While anti-Muslim hatred was already prevalent in Germany before 07 Oct 2023, a strong increase in anti-Muslim attacks was reported. The report indicates higher prevalences of anti-Muslim and anti-Islam attitudes among the older generation and in East Germany. It reasons that personal, interreligious contacts promotes a reduction of anti-Muslim stereotypes and attitudes. The report recommends differentiation in public debates to maintain social cohesion.	Rests on quantitative and qualitative data from other studies, inter alia the Religion monitor	N/A - not applicable/available	Not applicable - national level
