Country code	Year	Reference details title	Reference details URL	Main thematic focus	Institution	Key findings - Short summary	Methodology (Qualitative/Quantitative and exact type used, questionnaires etc)	Sample details and representativeness	Area/location of interest - NUTS3 level
Slovakia	2023	<a href="#">Vicenová, R., Máriaššiová, A. &amp; Popik, J. (2023), Nenávistný jazyk na politických facebookových profiloch. Správa z monitoringu nenávistných prejavov (Hate speech on political Facebook profiles. Hate speech monitoring report). Bratislava, Sloven</a>	<a href="https://www.snsip.sk/wp-content/uploads/Nenavistny-jazyk-na-politickych-fb-prof...">https://www.snsip.sk/wp-content/uploads/Nenavistny-jazyk-na-politickych-fb-prof...</a>	Other forms of hate speech	Slovakia, Slovenské národné stredisko pre ľudské práva	The monitoring report results indicate that narratives associated with hate speech were also directed against migrants, often in connection with anti-Muslim expressions. These attitudes most commonly took the form of stereotyping and inciting fear or threat. These attitudes were very often linked to anti-EU narratives. Approximately 30.4% of posts related to Islam portrayed Muslims as a security threat. In 28.6% of cases, it was negative stereotyping. Approximately 1.7% of such posts contained serious hate speech and calls for violence.	Slovak National Centre for Human Rights is an equality body. Its goal is to monitor compliance with human rights and the principle of non-discrimination, as well as to conduct research and analysis on this topic. This report is the result of monitoring hate speech on the social network Facebook during the pre-election campaign in 2023. The analysis monitored both hate speech by politicians and comments under their posts. It focused on homophobic, anti-Roma, and anti-Muslim expressions. The report analyzed 44 profiles of the most popular politicians and a total of 4618 comments, 4005 posts. Overall, the report analyzed 8623 contributions.	The report analyzed 44 profiles of the most popular politicians on Facebook and a total of 4618 comments, 4005 posts. Overall, the report analyzed 8623 contributions.	Not applicable - national level
