Hungary	Healthcare	Detainees are entitled to have access to adequate medical services, including emergency care, equivalent to those enjoyed by the general public. Prisons have to have a prison doctor available on site. All prisoners, within 72 hours after their reception, have to go through a general medical check, and they have prompt access to basic medical services (including emergency dentistry services) within the prison.	Healthcare Decree (8/2014. (XII. 12) IM rendelet a büntetés-végrehajtási intézetekben fogvatartottak ellátásáról)	The NPM stated that medical services available to persons deprived of their liberty, i.e. medical care, nursing, necessary diet, therapeutic appliances and equipment, rehabilitation or any other special form of treatment, shall be provided under the same conditions as they are provided in general to members of society. The barrier-free accessibility, furnishing and equipment, medical nursing and technical staff of healthcare institutions servicing persons deprived of their liberty shall also be provided in accordance with the aforementioned requirements.	2016	http://www.aibh.hu/documents/0431572682477/2016+Annual+Report+of+the+OPCAT+NPM.pdf/9e7a3e9a-8d77-995-9853-6e91dce15f5a

Healthcare Decree (8/2014. (XII. 12) IM rendelet a büntetés-végrehajtási intézetekben fogvatartottak ellátásáról)	I request the Minister of Justice to examine - together with the Minister of Interior - the possibilities of regulating more effectively the examination of the mental condition of detainees before making a decision on the application of the rules of any form of separate accommodation, including their placement in a single occupancy cell, and to take steps to issue the necessary regulation. I request the chief commander of the national penitentiary system to consider the possibility of increasing the size of the health-care personnel in order to have more employees and psychologists. I request the commander of the penitentiary institution to make sure that detainees suffering from asthma can always keep their inhalers on their person, to make sure that detainees receive the necessary medicines even when they do not have immediate access to a medical consultation, to guarantee the broadest possible range of psychotherapeutic treatment to those detainees who have recently been operated on or injured.	2018	http://www.aibh.hu/documents/01807809026/474_2018_jelen%C3%A9s.pdf/a57d5e7b-4d7d-2e04-5eb6-ab664b672bde
