Subject: Clarifications during tendering

Dear Sir/Madam,

We received questions of general interest from the tenderers. Please find herewith the answer to these questions.

Yours sincerely,

10 Michael O'Flaherty
Director

Clarifications during tendering

F-SE-17-T11

FRANET- Data collection and research services on fundamental rights issues

Questions and Answers III

Question 20:

We would like to ask for a clarification related to the procurement procedure F-SE-17-T11 (FRANET - Data collection and research services on fundamental rights issues).

This is regarding the requirements for the project team.

The technical specifications (p. 13 and 14) and the selection grid (in Annex C) state that that a number of publication (**abstract in English**) must be provided for most experts (Senior expert, Legal expert, Expert in Social Sciences, Social expert on fieldwork research) under Lot1 to 29.

For Lot30, the selection grid state that a number of publications (abstract in English and **full text in any EU language**) must be provided for most experts (Senior expert, Legal expert, Expert in Social Sciences, Social expert on fieldwork research).

Could you kindly confirm that we do not need to include the full text of publications of the experts for Lot1 to 29 in our proposal(s) but only an abstract in English?

Answer 20:

For Lots 1 to 29 tenderers need to provide abstracts in English and not full text of the relevant scientific publications by expert profile (i.e. senior expert, legal expert, etc.).

For Lot 30 tenderers need to provide the full text in English of the relevant scientific publications required by expert profile, tenderers are not requested to provide any abstract.

Please note that there is a discrepancy between what is requested under the technical specifications and Annex C – Selection grids per profile for Lot 30 (international level). Tenderers for Lot 30 should provide the requested number of scientific publications in English and not in any EU language as it is stated in Annex C – selection grid. In this case the technical specifications Annex A1 should prevail. A revised Annex C form – selection grid for Lot 30 is available on line.
