Additional Information

My research has always been focussing on human rights, especially on the interrelation of human rights in Europe (i.e. the ECHR, the EU human rights, and the human rights enshrined in the Member States' Constitutions). My dissertation has analyzed institutional conflicts between different jurisdictions emerging from diverging perspectives on human rights as well as different judicial solutions of human rights cases. Additionally, my research concentrates on the application of EU human rights to domestic as well as international measures. Since 2015, I have been one of the Co-Directors of my Faculty's Department of Public Law.
